SafetyCam AI Edition

80% of car crashes are attributed to distracted driving. Take the next step to elevate your fleet's safety.

Engineered with fleet managers in mind, our AI dashcam is a powerful tool for businesses of all sizes. Equipped with advanced multi-sensor HD cameras, it provides live and recorded video evidence of driving incidents.

Leveraging artificial intelligence and computer vision, the dashcam proactively identifies and alerts drivers to distracted driving, drowsiness, and unsafe behaviors. Seamlessly integrated with Azuga Fleet and Azuga FleetMobile, our solution offers a comprehensive approach to fleet safety. By reducing risks, improving driver safety through real-time coaching, and capturing live and recorded video, our AI dashcam grows with your fleet's needs.

Revolutionize Fleet Safety

Distracted Driving
Reduce accidents by targeting one of the leading causes.

Proactive Safety
Real-time alerts for dangerous driving behaviors.

Total Visibility
Live video on vehicles, drivers, passengers, and cargo.

Targeted Training
Personalized coaching based on driver data.

Protect Your Assets
Cloud-stored video evidence reduces claims and exonerates drivers.

Advanced Tracking
Lightweight GPS monitors harsh driving events.
